

Streetlight LED Upgrades

Park Forest LED Streetlight Upgrade Program

- Will have approximately \$3800 in cost savings per year based on current energy rates on first LED upgrade alone.
- LED Upgrades decrease energy needs, costs and the village's carbon footprint.
- Two other upgrades have already occurred and the fourth upgrade started in the Downtown area on 26 February 2019.

Kilowatt Hours for First Village Street Light Upgrade

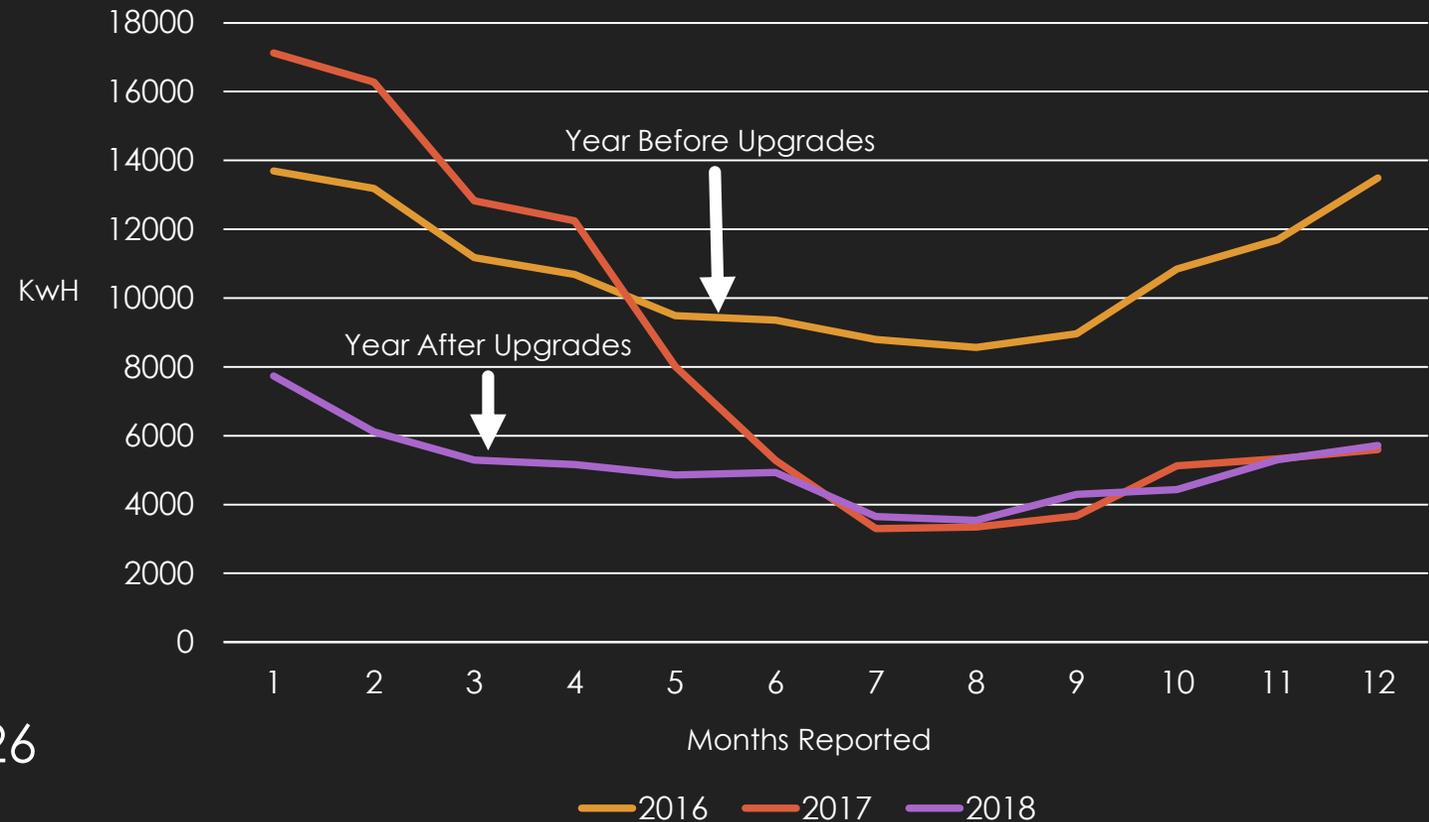

Figure 1: Kilowatt Hours used by first street lights with LED Upgrade and reduction in energy use.
